

REYNALDO JR. DOMINGO

WEB DEVELOPER INTERN

Deca Homes, Mintal, Davao City, Davao Del Sur | reyndoming@gmail.com | 09104673672

Motivated and detail-oriented Full Stack Developer with a strong foundation in both front-end and back-end development. Skilled in creating responsive and user-friendly web applications using modern frameworks, databases, and development tools. Passionate about building efficient software solutions and continuously learning new technologies to improve development practices.

TECHNICAL SKILLS

HTML	PHP	
CSS	Laravel	MySQL
JavaScript	C# .NET MVC	SQL Server
Tailwind CSS	React	Node.js

PROJECTS

Efres Seedlings - Capstone Project	2025-2026 Web Development
A Laravel-based capstone web application for managing and tracking plant growth and agricultural data. It integrates a Random Forest Regression (RFR) model using Python to predict seedling maturity and optimal harvest timing. Built with Python, Laravel, MySQL, and Tailwind CSS for a responsive and user-friendly agricultural management platform.	
Transport Hub	2024-2025 ASP.NET Core Development
A comprehensive transportation management system designed to streamline logistics and hub operations. Features include route management, vehicle tracking, and automated scheduling to improve efficiency in transport services. Built with ASP.NET Core MVC, C#, and Entity Framework Core.	
Akina POS & Inventory	2023-2024 Web Development
A robust Point of Sale and Inventory management system tailored for retail businesses. It provides real-time tracking of sales, stock levels, and financial reporting, ensuring seamless business operations and data-driven decision-making. Built with Laravel, MySQL, and Tailwind CSS.
